BRING A LITTLE MAIN STREET INTO YOUR HOME WITH A PAPER LUMINARY VILLAGE

Molly Hirsch INTERIORS

DIRECTIONS:

1.

Print out on card stock paper. It is formatted for standard 8.5” x 11” size paper.

2.

Cut out around the outline with scissors and then use and X-acto knife to cut out the windows and doors. Doors are meant to only be cut on 3 sides to have the door open.

3.

Buildings can be freestanding by bending the edges back to support or the whole village can be taped together at base and folded accordion style to stand.

ENJOY!
